strong. secure. invisible.

Strong appearance. Flexible use.

From changing products to seasonal campaigns to individual brand worlds, our **magnetic fixing system** adapts with ease. It impresses with its sophisticated technology, high-quality materials, and maximum design freedom.

The universal magnetic holder can accommodate a variety of elements, such as shelves, trays or special holders, and it can be positioned anywhere on the surface. When combined with our proven tensioning frame technology, it creates stable presentation surfaces - even in large formats - that can be used on one or both sides.

Thanks to the flat silicone edges, fabric graphics can be swapped out in no time. This makes redecorating easy and ensures that the look is always up to date. Perfect as a freestanding display or for top-notch shop concepts!

➤ Magnetic Fixing System

Product in focus.

Our magnetic retainers can be flexibly moved within the frame and easily adjusted in height and width. Once in position, they disappear invisibly behind the fabric graphic. The fabric quickly clamps into place via the groove and can be effortlessly replaced at any time. Perfect for changing product presentations.
