

A diagram showing two adjacent rectangular rooms. The room on the left is labeled 3×4 and the room on the right is labeled 4×4 . They share a common vertical wall. A staircase is located at the bottom of this shared wall, with its entrance at the bottom of the 4×4 room and its exit at the bottom of the 3×4 room. The staircase is represented by a vertical line with 12 horizontal rungs. The rooms are outlined with double lines, and the staircase is outlined with a single line.
